

ACIM Thursday Evening Gathering

A Time Dedicated to *Practicing the*
Teachings of A Course in Miracles

Facilitated by Patti Fields

The focus of this weekly gathering will be on the *practice* of Course teachings, for it is through practice that we come to *experience* the promises of this spiritual path. Often as Course students we may understand the concept of a Course teaching but need help to see how to apply it to particular situations, relationships, and events in our lives. It is important to support and encourage one another in this because A Course in Miracles path to finding true freedom, lasting peace and perfect happiness differs greatly from the world's and our past learning has become so habitual, it is helpful to have others to support our unlearning of old ways of thinking.

- During our time together we will use the format of meditation, sharing, discussion and teaching to:
 - Discover ways to apply the Course to our particular life experiences.
 - Discern how to approach one's own daily practice with ACIM.
 - Gain insight into false beliefs that are blocking Love's presence.

- Open to all regardless of how long you have been a student.
